### **Allowable Subject Matter**

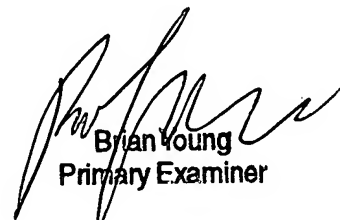

1. Claims 1-9, 11-24 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a circuit for analog-to-digital conversion, comprising: a series of adjustment resistors coupled between an output of each of the first amplifiers of the first pre-amplification circuit and an input of each of the amplifiers of the second pre-amplification circuit; and the adjustment process is performed by injecting an adjustment current into an adjustment resistor connecting an output of an amplifier of the first pre-amplification circuit to an input of an amplifier of a second pre-amplification circuit as called for in claims 1, 19, 21 and 24. Therefore, claims 1-9, 11-24 are presently allowed.

### ***Conclusion***

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
